# CAN CANNON® LINE LAUNCHER MANUAL

---

## **WARNING:**

USE MIL SPEC BLANKS IN THIS DEVICE ONLY. ORDER ON OUR WEB SITE.

## **WARNING:**

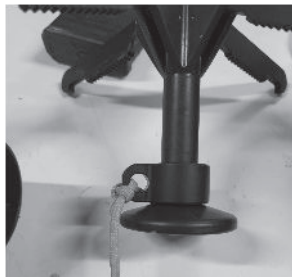

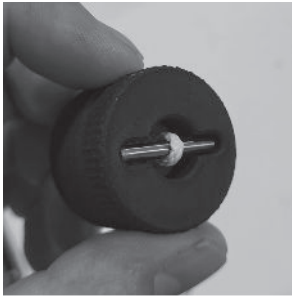

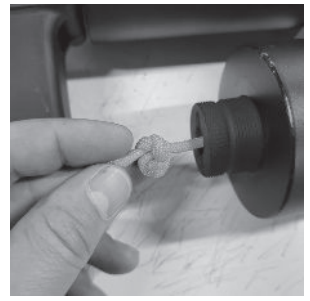

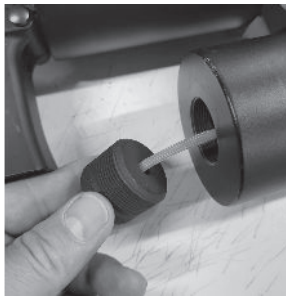

READ INSTRUCTIONS FIRST. NOT READING AND FOLLOWING THESE INSTRUCTIONS CAN CAUSE DAMAGE TO YOUR HARDWARE OR SERIOUS BODILY INJURY.

This attachment will allow you to safely and effectively house the line of your choosing and allow you to get your line to the place that you need it.

1. To install the Line Launcher sleeve, place the two threaded clamps on the underside of the sleeve of your Can Cannon®.
2. Install the top clamp and tighten the socket head cap screw with a 1/4" Allen Wrench. Tighten to 35 in/lbs.
3. Feed the end of a line through the Line Launcher sleeve and then through the retention plug, and tie a knot in the end of the line (or if the line is smaller in diameter, use a pin to hold the line).
4. Either insert a line cartridge (available soon) or start feeding the line into the Line Launcher sleeve taking care in not causing kinks or knots in the line.

NOTE: HOLDS APPROXIMATELY 200 FEET OF PARACORD.

## **WARNING:**

SHOOTING FLAMMABLE OR EXPLODING OBJECTS OUT OF THE CAN CANNON® MAY CAUSE HARM OR DEATH TO THE OPERATOR AND BYSTANDERS. THIS INCLUDES FLAMMABLE LUBRICANTS AND OILS. X PRODUCTS LLC TAKES NO LIABILITY IN THE MISUSE OF THIS PRODUCT.
